PROFILE

Aspiring Software Developer with hands-on experience in Python, Django, JavaScript, HTML, CSS, Tailwind CSS, and SQL. Skilled in developing responsive web applications, backend systems, and database-driven solutions through academic and internship projects. Passionate about backend development, full-stack development, and machine learning, with strong analytical, problem-solving, and collaborative skills. Eager to contribute to innovative software solutions while continuously learning modern technologies.

PROFESSIONAL EXPERIENCE

WEB DEVELOPER INTERN

JAN 2026 – MAR 2026

J B Soft System Solutions || Saidapet, Chennai

Managed and updated WordPress website content while designing responsive pages, performing maintenance (plugin updates, bug fixes, performance optimization), applying basic PHP customizations, and collaborating with team members to deliver projects on time and meet requirements.

DOCUMENT SPECIALIST

SEP 2023 – APR 2024

RR Donnelley || Nandanam, Chennai

Designed high-quality visual content using Adobe InDesign and Acrobat X Pro, collaborated with cross-functional teams to align with project goals and brand standards, streamlined document workflows, and managed secure file organization within Citrix environments.

ACADEMIC PROJECTS

Freelance Market - Micro Task Marketplace Platform

Technologies : Python (Django), HTML, CSS, JavaScript, SQLite

Developed a freelance micro-task marketplace web platform with user authentication, gig creation and listing, order management, dashboards, freelancer levels, and availability status, delivering a user-friendly system that streamlines hiring and improves task tracking efficiency.

TNPSC Buddy - A Smart Notes Sharing and Assistance Platform

Technologies Used: Python (Django), HTML, CSS, JavaScript, SQLite, Chart.js, Dialog flow

Developed a smart web-based platform for TNPSC aspirants with features including secure note uploads, user authentication, comment and review systems, checklist tracking, graphical dashboards, and AI-based chatbot support, delivering an integrated solution that enhances collaborative learning, content accessibility, and performance tracking.

KEY PROJECTS

Green Leaf Café

Developed a modern responsive café website using HTML5, Tailwind CSS, and JavaScript.

Designed responsive navigation, hero section, menu cards, testimonials, and contact sections.

Implemented smooth scrolling and mobile-friendly layouts.

Food Munch Landing Page

Built a responsive restaurant landing page using HTML5 and Tailwind CSS.

Created navigation, menu cards, payment section, and responsive layouts.

Optimized UI for desktop and mobile devices.

JavaScript Mini Projects

Developed interactive Counter, Timer, and Smart Light Switch applications.

Used DOM manipulation, event listeners, setInterval(), setTimeout(), conditional logic, and dynamic UI updates.
